

ADMITS S.V. SLAYING OF WOMAN

WHERE BODY WAS FOUND — This was the scene on Dictionary Hill in La Presa when police recovered the partially-decomposed body of San Diego murder victim Mrs. Katherine Tabor, 35. "X" marks spot where the body was found by a dog belonging to Pat Salerno, who was taking it on a walk. Traces of blood were discovered and

items of clothing were scattered about. Police estimate Mrs. Tabor had lain dead here for five days before discovery. Michael Henry Grove of San Diego is the murder suspect, having admitted the slaying after being tracked down by detectives.

Shuffleboard Worker Charged With Murder Of Katherine Tabor, 35

A Normal Heights man, Michael Henry Grove, 31, was charged Monday with the murder of a San Diego woman, whose nearly-nude body was found Sunday morning on the east slope of Dictionary Hill in South Spring Valley.

The body, that of Mrs. Katherine Tabor, 35 or 4022 Meade Ave., was discovered by Pat Salerno, 25, of 1245 Elkton Blvd., Spring Valley. Salerno had been in the area exercising his hunting dog, Susie. He said he had called the dog but she failed to obey. Then he walked over to a bush at which the dog was sniffing and whining. He said it was then he saw a pair of legs.

At first he thought the legs were from a department store "dummy," but after a closer look found they belonged to a woman's body. He hurriedly climbed back into his pickup

truck and drove to the nearest telephone where he called the Sheriff's Dept.

RE-ENACTS CRIME

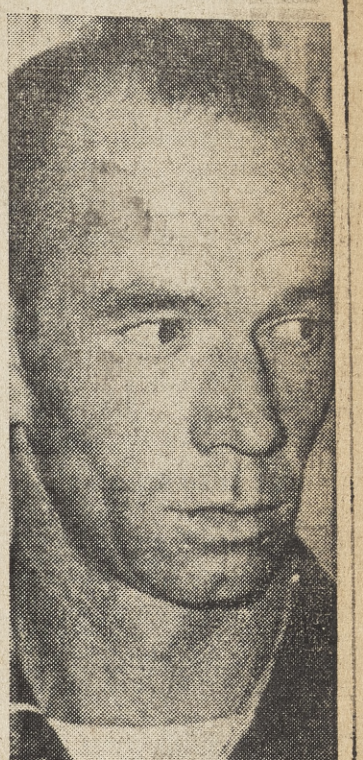

The murder suspect, Grove re-enacted the crime at the scene following his arrest. He was taken there by sheriff's deputies Thomas Johnson and Donald Bender. The site of the crime is known as a "lover's lane" and target range. It is about a quarter of a mile north of Jamacha Blvd. The body had been lying in a shallow gully.

An autopsy indicated that Mrs. Tabor had died from a fractured skull, possibly caused by a blunt instrument. Deputies found a rock which may have been the lethal weapon.

Mrs. Tabor had been identified by her husband through her clothing and a wedding ring. After identifying his wife, Tabor collapsed according to deputies. Tabor said his wife, the mother of two children had been with him in a bar on El

Cajon Blvd., on Tues., July 24. He said he saw her go out of the bar and that she failed to return. He said he also saw a man in a short-sleeved shirt go outside and believed the man was driving a 1958 automobile. Tabor reported his wife's disappearance to San Diego police seven hours later, it was reported.

BLOOD FOUND

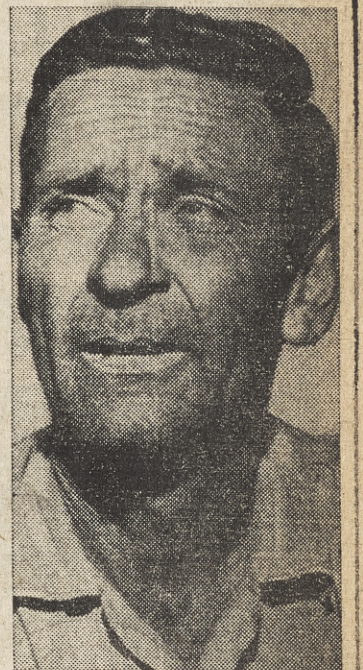

Deputy Johnson, who was at the scene of the crime along with coroners deputies, said he found three places where there were traces of blood. He said Mrs. Tabor's blouse was found approximately 25 feet from the body on a dirt road. One white shoe was found but the other was missing. Her skirt was near her body and her slip torn away. Her bra was under her body.

Another detective, William Clements, said Mrs. Tabor had lost so much blood, it was doubtful she was alive when taken to Dictionary Hill. Chief Deputy Coroner Mort Geer said he believed Mrs. Tabor's body had been in the gully five days. It was decomposing.

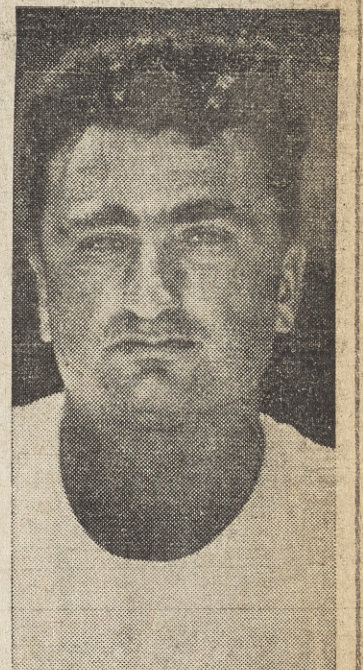

Murder suspect Grove admitted slaying Mrs. Tabor the day she disappeared. Clint Tabor said he recalled a scar-faced man talking to him and his wife in the bar on the Tuesday she disappeared. The bartender at the El Cajon Blvd. bar said he recalled that such a man had worked on the shuffleboard in his place.

Grove was traced by the sheriff's deputies through the fact he was scar-faced and that he worked on shuffleboards. Grove said that after he had killed Mrs. Tabor he had taken her purse, containing \$5. The purse was found in his home. He gave no reason for the killing. He was taken to County Hospital for psychiatric examination. District Attorney Don Keller said Grove probably would be arraigned in El Cajon Court.

Services will be held on Friday of this week for Mrs. Katherine Tabor in the Sallie Lynn Chapel at Greenwood Memorial Park. Interment will follow at Fort Rosecrans National Cemetery.

New Assistant Superintendent Named At Grossmont; Raises Given Three Top Administrators

Dr. Leon Lessinger, formerly chief of guidance and psychological services for the Grossmont Union High School District, was promoted to assistant superintendent, guidance and curricular services by the Governing Board Monday. Lessinger's new salary will be \$14,387 with placement on the assistant superintendent's salary schedule. He had been offered \$15,000 by another district.

Superintendent Lewis F. Smith said the district administration had taken the initiative in requesting Lessinger to remain because of his superior qualifications which had been demonstrated by his work here during the past two years.

STUDY APPROVED

The Board also approved a proposal for a study during the coming year of administrative

organization and service at both district and local school level. A survey of staff size and average salaries paid in other comparable high school districts was presented to the Board which showed that Grossmont administrators were overloaded and underpaid.

An 18-district average study, according to a report available from school authorities, shows that higher salaries are paid elsewhere than here in two or three top administrative positions.

Superintendent Lewis Smith's salary of \$17,000 compares with the 18-district average maximum of \$19,111. Deputy Superintendent Harld Hughes' \$16,646 compares with \$17,348 average. Assistant Superintendent Tom Warburton's \$15,634 salary is

the same as the average maximum. The new scale is: Smith \$17,476; Hughes, \$17,112; and Warburton, \$16,071.

SALARY INCREASES OK'D

The Board approved salary schedule increases amounting to 2.8% for the three positions. This was the same percentage authorized for revision of basic teacher salary schedule. Principal's salaries were increased to a range of \$12,630 to \$14,030 in order to restore the original ratios established for the position of 1.25 to 1.40 of the basic teachers schedule. At the same time the service required of principals was changed from 10½ months to 11 months in order to enable principals to participate more effectively in curriculum development during the summer months.

PROGRESS REPORT

Park Getting Water; 'Tot Lot' To Come Soon

With installation started this week on water lines for the new Greenspot Park at Alton and Washington streets in Lemon Grove, progress continues on the park grounds wanted for so long.

The Purdy and Fitzpatrick Co. of 3517 Camino Del Rio was low bidder on the project with a contract winning figure of \$4,584.95 according to Cletus "Biff" Gardner, head of the San Diego County Parks and Recreation Department.

Grading has been completed on the park site, although it was necessary to grade it twice and an all-urpse concrete slab

85 by 50 feet for basketball, rollerskating, volleyball and other activities is now done, Gardner added.

"TOT LOT COMING"

"Many of the important features of the park will be put in after the waterlines are ready," Gardner explained last week. A lot with playground equipment and an intermediate recreational facility will be started within 30 days. After that rest-rooms will be installed.

Waterlines are to be installed at a later date in the three-acre section of the park donated by the Lemon Grove Swimming Pool Association which never built the pool it planned for.

Features to follow the water pipe laying will be the lawns and tables and stoves. Other features are to go in during the next fiscal year — from June 1963 to June 1964.

THINGS CAN BE ADDED

"Our department only provides certain things in making a park," Gardner said in explaining the policy of the division he heads. "Other things are up to the citizens in the given community. If Grovans wanted to they could, for example, locate a senior citizens center at the park."

Gardner said that his department has no plans for a swimming pool for the Greenspot Park in Lemon Grove in the foreseeable future. He pointed out that a swimming pool is not only expensive to build but expensive to maintain. "Besides, if we were to build a pool in Lemon Grove every other community in the county that has a park would expect us to do the same for it," Gardner said.

The Lemon Grove Review goes into its fifteenth year of publication with this issue. This week is our fifteenth birthday! And we invite readers to observe with us this important point in the career of a newspaper that we feel has played an integral role in the development of this community.

Some of the stories The Lemon Grove Review brought to you readers during its fourteen-year of news coverage were:

Streetslights for Lemon Grove's downtown; park here gets "go" ahead; \$197,000 in federal funds go to L. G. Sanitation District; \$270,000 warehouse fire strikes here; anti-tumbleweed forces seek to rid community of this unsightly, inflammable weed; editor and publisher of this paper, Max Goodwin, escapes uninjured after crashlanding his small plane with two passengers in the rough Santa Rosa mountains.

We would like to remind readers again that this newspaper, like its companion publication—the Spring Valley Bulletin—invites our readers to phone in news concerning their family, friends, organizations and community.

Bureaus Have Double Standards

One of our correspondents who desires to be anonymous, complains that the age-old practice of giving notice to employees before leaving is a courtesy that went out with the 12-inch television screen.

The complainant should be heeded because he is a professional and an employer whose judgment is called upon many times a day by the persons with whom he comes in contact. If his judgment is wrong, the effect would be dire and long-lasting.

He also complains that under present guide lines used by state employment people, an employee may quit without cause or notice and that the bureau, who is judge and jury, awards relief to the employee and a financial penalty to the employer without the benefit of proof.

The bureau operates on "belief" of the employee and when the employer complains, the bureaucrats shout "prove it!" he says.

This bureaucratic behavior is obviously unconstitutional, he adds opining that there may be some recourse against individual bureaucrats via a civil suit brought against them by the employer. He said that it would be comparatively simple to show that a "double standard" exists in the minds of the bureaucrats. These "Crats," says he, need only "believe" to make an award to the employee, while the conscientious tax producing citizen must "prove" his case.

While Harry Cox, a salesman for Spears, went into the sales office for a sales contract, the car shopper hopped into the Austin Healy and drove off. Cox gave chase but lost him as he headed west on highway 94 at a high rate of speed.

Wednesday, an anonymous phone caller gave Pat Grace, Spears' executive, a motel address as the location of the car. Later, sheriff's men apprehended a man who had driven the car to the motel. He admitted that he had taken the car and that he had made the phone call.

S. V. Fire Chief Puts Out Fire In Lemon Grove

When the Lemon Grove Fire Department received a call on July 26 at 10:16 p.m., they discovered that the caller was Fire Chief Frank Berger of Spring Valley, who had been passing through the area and spotted smoke at 8305 Broadway Ln.

Firemen were even more surprised when they arrived on the scene where two couches in a patio had been burning. Fire Chief Berger, they discovered, had extinguished the fire after calling it in.

Damage amounted to \$50. Firemen estimated the couches were ablaze for a long time before Fire Chief Berger came along. He extinguished the fire with a garden hose.

James Eppick of 1515 Skyline Dr., L.G. was burning legally on a big grassy site behind his home on July 25. A call regarding the "control burn" reached firemen at 6:24 p.m. and they aided Eppick in getting an out-of-control side of the fire under control.

When firemen were called at 4:28 p.m. on July 26, they saw a control burn that was under control at 69th and Madera, which is out of the district anyway, they said.

The cause of an open field two-acre blaze in the 1700 block of 69th st. is undetermined. L. (Continued on Page 4)

Heart Monitor Given Hospital By Women's Group

Grossmont Hospital has just added to its equipment a valuable machine to be used where needed in the care of cardiac patients. Leverett F. Bristol, hospital administrator, said this equipment is used in monitoring for external defibrillation of the heart. It will be used in connection with the defibrillator machine acquired by the hospital several years ago. The electrocardiograph machine cannot be used at the same time the defibrillator is being used on a patient, Mr. Bristol explains; this new instrument, however, can be used with the defibrillator, giving the doctor and nurses the type of information that would be provided by the electro cardiograph.

Both the defibrillator and the new monitoring instruments were gifts to the hospital by the Women's Auxiliary of the hospital.

LITTLE LEAGUE: MAYBE IT IS TOO GOOD TO BE TRUE

There's more and more talk going around concerning "little league elbow." It seems that doctors are now convinced that a boy pitcher can develop arm trouble because his bones are not yet hardened. Apparently this arm trouble can last the boy's whole life.

Little league activity has been wonderful for boys and adults alike. In a few more years it will be an American tradition. But this game in which thousands of boys across the nation take part annually, wearing nice uniforms, getting their names in the paper at a very early age and playing hard at a sport formerly indulged in only by the nation's top adult athletes has, like the trampoline gymnastics, not been good for some participants.

A boy who has "little league elbow," and catches develop this too although less frequently, will no longer be able to pay in little league. More importantly, the boy may be stuck with a bad arm.

What will it be, then, a baseball pitching machine or a man pitcher? Or at least four boys taking turns pitching each game? A solution should be upcoming soon or the same parents that have been overjoyed at having their youngsters playing this wholesome "grownup game" will be taking their boys out of the game to keep them from getting "little league elbow," or at least insisting they don't pitch or catch.

I personally am all for little league. But like everyone else, I don't think the price for participating should be a damaged arm.

Reader ideas on this subject will be welcomed by this newspaper. Send them c/o of this column.

VALLEYITES FILE \$320,000 LAWSUIT AFTER FOUNDATIONS IN NEW HOMES DROP INCHES

FLOOR SINKS — J. C. Rose of 1667 Walbollen st., Spring Valley was among 40 home-owners in Spring Valley Estates who filed a \$320,000 lawsuit in Superior Court here on July 25 against Bollenbacher and Kelton, Inc., and Ben F. Smith, Inc., seller and builder respectively of 2,200 homes in the subdivision. The 40 complain that unstable foundations on adobe soil are settling, causing multiple defects in the homes such as cracked walls, floors and ceilings.

Here Rose demonstrates with a ruler that his foundation dropped two inches, leaving a gap between wall and floor. The door in this photo has been lowered, Rose said.

CREVICE MADE — Marian Pierce is another of the dissatisfied Spring Valley homeowners. Standing on a chair, she puts her hand into the crevice between ceiling and wall separating her living room and kitchen. The crevice was made when the foundation of Miss Pierce's new home gave way. The lawyer for the homeowners said the builder should have used thicker concrete when putting foundations on adobe.

TARANTULA COMES IN — George Paularena of 1660 Walbollen in Spring Valley watches tarantula, a jar-resident, with his boys, David (center), who is 8, and Gary, who is 5. Paularena, who heads a group of 40 Spring Valley Estates residents in lawsuit, claimed that another tarantula, somewhat smaller than this one, came into the house through a space created under the wall when the foundation sank. Floors went down as much as 2 1/2 inches in some spots in homes of the plaintiffs.

A correlative citation to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy states (p.142): "Truth is God's remedy for error of every kind, and Truth destroys only what is untrue. Hence the fact that, to-day, as yesterday, Christ casts out evils and heals the sick."

Letters To The Editor

Dear Editor:

Recently I read an article in the C.D.C. (California Democratic Council) magazine which left me thoroughly amazed, and wondering if its author read the same American history, dictionary, and Declaration of Independence as I.

The article contained a "program" for Democratic Clubs to follow, including detailed instructions on how to apply pressure on "reactionary Republican" newspapers and more effectively impose the CDC viewpoint on the general public. The clubs were also urged to develop a program to "fight communism". The outlined program begins with the destruction of existing anti-communist groups and individualism.

Here is what they said: "First, we can agree that the radical right is dangerous to the continued growth of the American Democratic progress. We can agree that the basic social philosophy being preached by radical right is extremely harmful to the well-being of America. How? We must examine the credentials of the radical right and vigorously reject the individualistic philosophy which gives it life. Individualism is immoral because it threatens our heritage of freedom."

"This lesson must be preached in (Democratic) Clubs. Our Clubs must have a positive program. Our Clubs must learn to act instead of reacting. We do this by reaffirming the basic principles of our Founding Fathers ... that all men are created equal with certain inalienable rights and that one of these rights is the right to a good name. We do this by reaffirming the principle of cooperation for the common good. This principle has motivated America for long years and it is the antithesis of individualism, a philosophy which has already written one of the blackest pages of American social history."

Individualism is immoral because it threatens our heritage of freedom? Webster's defines Individualism as "a theory of political economy ... which advocates the maintenance of individual rights in government or industrial organization as opposed to socialism or government control". . . . The U.S. Constitution is based on the idea of personal, religious and economic freedom of the individual.

If this is the philosophy which gives life to the "radical right," in what way is it harmful to the well-being of America?

Where in the Constitution or the immortal Declaration of Independence do we find the "principle of cooperation for the common good" that we are to reaffirm? Where in the history of America do we find that black page written by Individualism?

If, as the author says, the existing anti-communist programs are wrong, what kind of program will these Clubs develop to fight communism — that Godless philosophy which considers Individualism immoral because it threatens their plans for world conquest?

pastor has reduced the attendance to the point where I felt that I was witnessing the "death" of a congregation. Those who stay away because of the change in pastors should realize that our allegiance should be to God. In these crucial times, before the new, larger church is built, we should all show more Faith.

Our Christian Faith emerged from a lowly stable so it should make no difference as to the size or condition of the building. It grieves me that the attendance is small. By staying away people are turning their backs on that which should be the sole purpose of entering church — to want to hear the word of God.

Sunday, to me, was reminiscent of another time. . . . Get-hemane. What was it He asked of his Disciples when, after He prayed, He found them asleep: "Could Ye not watch with Me one hour?"

Dear Editor:

This is an urgent appeal for help in making known to your public, according to your best judgment, the August 5th date of St. Elizabeth's Bazaar and all day Barbeque Beef Dinner in Julian, 11 a.m. to 6 p.m.

Thank you and may God bless you for your efforts in our behalf.

"Life, Liberty and Pursuit of Idleness!"

Some Interesting Jobs To Break The Monotony and Build Up Your Reserve Account!"
"All Play and No Work Makes Jack's Reserve Account Go Down!"

I trust these booklets will help your readers better understand the working of this very dedicated government agency.

highest of any candidate in the county . . . a thumping \$2.70 a vote, and he lost.
Interestingly, he spent 26% on radio and tv; 24% on novelties including mailing and 19% on billboards.
He spent only 4% on newspaper advertising.
There is a mighty fine sermon in these figures. Politicians could bring the cost per vote down by using some of the money in newspapers now being spent unproductively for other attention-getting gimmicks.
As most merchants have discovered, nothing holds the attention of the potential purchaser (or voter) like a local newspaper.

Federal Funds? Nuts! It's Our Dough

One of our contributors has urged us to discuss an editorial which appeared in the California Real Estate Magazine in July. The editorial is a reprint of a column which appeared in the Cleveland Plain Dealer under the by-line of Howard Preston. Preston urges us not to be misled by such phrases as " . . . paid for by federal funds," or " . . . at government expense."

It's a lie, quoth he. "The bridge, the road, the building or the school being built partially by "government funds" is being built only by taxpayers' funds."

No politician is called upon to spend his own money except through his own contribution in personal income tax.

It isn't President Kennedy's money any more than it was President Eisenhower's, or George Marshall's under the Marshall Plan. Its taxpayers' money. The implication that there is some sort of joint financing of a project and that federal money is "found" money is a governmentally contrived fallacy. . . .

It's about time somebody exposed some financial facts of life. The government doesn't earn a dime unless you include some of the unintentional profits it makes from intrusion into business.

The writer calls for all newsmen to change the phrase "federal funds" and the like to read "taxpayers' money." Instead of accepting the statement that "The U.S. Government today gave \$10 million in foreign aid to Laos, it should read "Taxpayers of the U.S. today spent, etc." . . .

Instead of telling how the federal government is paying for some new buildings in Catchall, Kansas, newsmen ought to report it as "The taxpayers citizens of 50 states today chipped in \$43 million so the people of Catchall could have a new town development."

Such effort would produce two results, the writer opines. First, it is more honest reporting because it gives credit properly to the people who are entitled to it. In the second place, the drumming home of the point that there is no federal funds but only "taxpayers' citizens" may eventually cause more people to zipper up the national purse strings. At least it might get recognition abroad for the hardworking folks who make it possible for our agents to play Santa Claus.

"Federal Funds? Nuts. That's our dough."

Christmas Celebrated Last Week By L. G. Family

A delayed Christmas party — Christmas in July — was held Saturday evening at the home of Mrs. June Hamilton, 1829 Madera Ave., Lemon Grove, honoring Mr. and Mrs. David Tucker of 5902 University Ave., San Diego.

The party filled the void left last December when the Tuckers were unable to follow a many years-long tradition of celebrating the holiday together. The tradition began when they were children growing up together on the same street in Detroit, and their families celebrated annually.

Last year, however, Tucker was in the Navy, stationed in Japan. The party was held in the home of Mrs. Tucker's cousin, Mrs. Hamilton.

Christmas decoration was used, and St. Nick passed out candy to children of the neighborhood.

Valley De Oro Little Leaguers Continue Their Winning Streak

Beat El Cajon, La Mesa Teams

The Valley de Oro Little League All Stars have done it again. After winning the Area 4 playoffs on July 21, they have gone on to be the champions of District 41. They have won over teams who were thought to be "overdogs."

On Friday, July 27, Valley de Oro took on the El Cajon Nationals at Singing Hills Country Club Little League field. The result was VDO 4 and El Cajon 3, with Tim McCarthy the winner on the mound. The game was not too outstanding, according to a report. El Cajon got the two home runs of the game.

Then on Saturday, VDO played the famous La Mesa Americans, beating them by a score of 6 to 2. Tommy Matters, the local southpaw, pitched the VDO team to victory. He allowed only two hits and was credited with 14 strikeouts.

Sectional playoffs started Wednesday of this week at Cabrillo field on Kerner Mesa behind Astronauts. The first game was between Dist. 42, South Eastern and Dist. 31, Northern San Diego. The winner of that game will play Valley de Oro (at the same field) on Thursday of this week at 5:30 p.m. Persons planning to attend the game are encouraged to be at the field between 4 and 5 p.m., in order to avoid the heavy traffic.

On Friday, Dist. 32 of Point Loma will play Dist. 33 of Mission Village. Then on Saturday, the game will be between the winner of Thursday's game, and the winner of Friday's game.

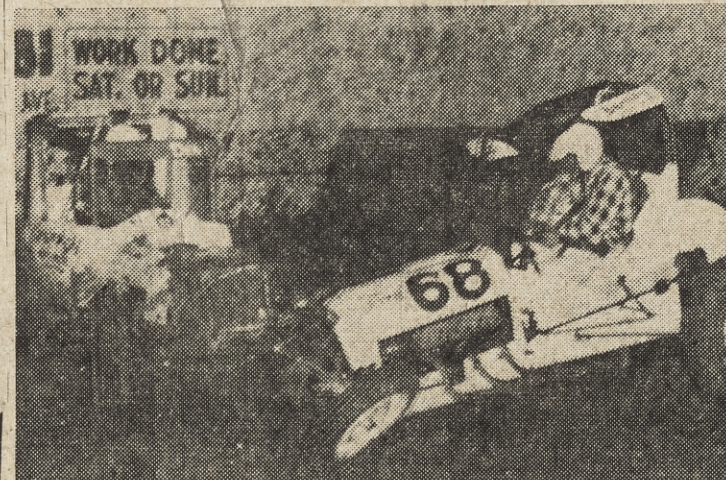

The winner of Saturday's game will be named the Sectional champions and will go on to the Divisional playoffs at Santa Monica, scheduled for Thurs., Aug. 9.

Cars Collide At Cajon Speedway

IT'S A HIT! — Last Saturday night at Cajon Speedway at Gillespie Field in El Cajon, fans saw Barney White of San Diego in car 68 plow into Don Freeman's sideslipping super modified sponsored by National City Corvette. Dirt and pebbles went flying and it was a direct hit as shown by the angled front wheels of car 68. Such scenes are not infrequently seen on Saturday nights when the super modifieds, take super chances vying in thrills-a-minute races. Competition gets underway at 8:15 with time trials an hour sooner. On Friday nights, daredevil motorcyclists accomplish the neat feat of getting around the steepchase track at breakneck speeds starting at 8:15 with time trials an hour sooner. The "Claiming Stock Cars" race will be held at the Speedway this Sunday evening at 7:15.

"JUNIOR WRECKING CREW" BOOSTING DANCE

The San Diego Square Dance Association has formed a "Junior Wrecking Crew" modeled after an adult group of the same title, which suddenly marches in upon member clubs of the Association, stopping their activity.

Then the Wrecking Crew joins the given club for the remainder of the evening. Purpose of it is to further square dancing and create cordial relations between member clubs.

The Spangles and Spurs of Spring Valley are among clubs visited.

Peaches beat Cynthia 6-1, 6-1. Nonetheless Cynthia ranks as number two in the nation.

Do Okay In First Game By Defeating L. G. All-Stars

Spring Valley Pony League did the Lemon Grove All-Stars the disfavor of eliminating them from area playoffs last week by beating them 19-2.

But on Sunday Spring Valley went up against the brickwall of Grossmont Pony League All-Stars, who beat them in two games, knocking them out of the area play-off tournament. In the first game, the score was 2-0; winning pitcher was Bernard Linn and losing pitcher, Jon Majors. Grossmont collected 2 runs on three hits and Spring Valley, no runs on three hits. In the second game Grossmont beat 12-1.

Stanley Noblensky was winning pitcher in the second game; Rick McGuffin, who pitched outstandingly against Lemon Grove, was losing pitcher. Grossmont chalked up 12 runs out of seven hits and two homers; Spring Valley got the lone run from six hits.

The Lemon Grove All-Stars had beaten Grossmont during initial games of the tournament held at Mt. Miguel High School last Thursday. Both Lemon Grove and Spring Valley are "out of business" now until next season. Grossmont played Chula Vista on Wednesday of his week at Chula Vista.

S. D. Chargers Open 1962 Training Camp

San Diego Charger Coach Sid Gillman greeted 26 footballers — 23 newcomers, 20 of whom are rookies — Mon., July 16 as the Western Division champions of the American Football League officially opened their 1962 training camp at the University of San Diego. Veterans, 25 strong, reported on July 21.

It will be harder than ever for rookies to make the final cutdown (Sept. 4) this season, for the Chargers boast of an exceptionally strong veteran nucleus. Knowing just what strengths he has returning, Gillman preferred to take a longer look at the freshmen to evaluate the overall personnel situation.

NOTICE IS HEREBY GIVEN that the Board of Supervisors of the County of San Diego will hold a hearing on Tuesday, August 14, 1962, at 2:00 P.M. in Room 310 of the County Administration Building, Civic Center, San Diego, California, on a proposed change of zone boundaries of the hereinafter described property in the Lemon Grove Zoning District from R-2-A, Residence Zone, to C, Business Zone, or a more restrictive zone, in accordance with The Zoning Ordinance of the County of San Diego.

Said property is about 35,500 square feet in size and is located on the northwest corner of Waite Drive and Massachusetts Avenue. The property extends north from Waite Drive a distance of about 280 feet and extends to a depth of about 127 feet from Massachusetts Avenue, and is more particularly described as portion of Lot 3 in Subdivision No. 3 of Lot 12 of the Rancho Mission of San Diego, according to Map thereof No. 58, on file in the office of the County Recorder of San Diego.

Said hearing will be held pursuant to the application of Walter Burgess, Mils B. Fuller and Florence Nelson on file in the office of the Clerk to the Board of Supervisors, Room 306 of said Administration Building, San Diego, California, made for further detail. At said hearing any interested person may appear and be heard.

The County Planning Commission, after making the investigation and holding the hearing required by law, has recommended that the requested change of zone be denied.

The statistics are prepared semiannually by American Bankers, a national trade newspaper.

Infant Left Unattended By Housekeeper Who Flees With S.V. Family's Cash

John J. Valluzzi of 1026 Herdfield Way, S.V. reported last week that Molly Shelin, a 41-year old bleached blond housekeeper, had left and \$75 in currency was missing. Mrs. Valluzzi, a legal secretary, was working at the time.

Valluzzi, a logistician at General Dynamics, had hired Miss Shelin four weeks earlier to look after the couple's 16-month old son. Neighbors said they saw a cab leave at 2:30 p.m. The baby was discovered alone at 5 p.m. Miss Shelin's former address was St. James hotel in S.D. She is an extremely short person approximately 4 feet all, with a deformity requiring her to wear orthopedic shoes with a seven-inch lift.

BAR PAL IS NO GENTLEMAN

Mrs. Jean Marvel Kawamoto, 26, of 2296½ Congress st., S.D. told the Lemon Grove sheriff's office that a pleasant gentleman offered to take her home from a bar in San Diego Sunday.

Instead, he took her to Sweetwater lake in La Presa, attempted to disrobe her and threatened to kill her. He robbed her of \$16 and drove away. She gave sheriff's men several leads regarding the suspect's identity.

WOMAN BEATEN

Sheriff's deputies were called to the home of Thomas John Nilsson, 6891 San Miguel where Nilsson's wife, Grace, 30, told them that her husband had inflicted bruises about her head and face with his fists following an argument Sunday.

L. G. MAN HOSPITALIZED AFTER SHOT-GUN THREAT

William Edward Kilgore, 30, of 8570 Palm st., Lemon Grove, was taken to the psychiatric wing of County hospital Thursday after he threatened family and officers with a 12 gauge shot gun. His wife had gathered him up at the Sunkist Inn in L.G. about 9 p.m. and brought him home. He rummaged through a closet and located a

shotgun and fired several shells in his back yard. When officers arrived he locked the doors. He had passed out, the sheriff's report shows, when the couple's children admitted officers a little later.
